IMMIGRATION LAW

Public debates on immigration law move fast and get overheated quickly, but the immigration process itself is a slow-moving bureaucracy, one that requires participants to navigate an alphabet soup of forms and filings. Naples attorney Casey Wolff walks clients expertly through the immigration system, from agricultural workers seeking nonresident visas to hotels recruiting restaurant staff from overseas.

Wolff says he thinks of himself as a teacher as well as an attorney, and his clients receive an education in Immigration 101. Through lectures and opinion pieces, both nationally and locally, Wolff talks to the public about the myths and realities of immigration practices. Although not shy about saying the immigration system is broken, Wolff is also optimistic about its fixes. Scary talk about “illegals” benefits no one, Wolff says, particularly not those whose labor is already enriching our local economy. In the privacy of Wolff’s offices, those workers and others will find a kind word, a fresh cup of coffee and an eager advocate ready to explain the law to them.
